LUBRICATION SPECIALISTS — SOUTH AFRICA

When uptime
depends on oil,
depend on Oily.

AUTHORISED DISTRIBUTOR

Gazpromneft · G-Energy · Cogelsa · MOL

oily.co.za

01 — WHO WE ARE

A South African company, built on relationships.

Oily SA (Pty) Ltd is a lubrication specialist and authorised distributor of Gazpromneft, G-Energy, Cogelsa and MOL lubricants across South Africa and the SADC region.

For more than eight years we have supplied mining houses, fleets, factories, farms, food processors and workshops with the right oil for their machines, their conditions and their uptime requirements. We don't just sell lubricants — we sell a solution, backed by people who answer the phone when something goes wrong.

8+

Years in the South African market

1,000+

Operations served nationwide

6

Strategic warehouses across South Africa

365

Days a year of technical support

Three things our clients rely on — year after year

Longevity

Our product lines don't change on a whim. What we recommend for your plant will still be available next year — and the year after.

Availability

We hold stock. When you need oil, you get oil — not a lead-time estimate. 24/7 support line and same-day emergency dispatch on request.

Accountability

We put our recommendations in writing. If a product doesn't perform as specified for your application, we take responsibility.

“

Oil keeps operations running.

Oily keeps you from having to think about it.

02 — INDUSTRIES WE SERVE

Built for your industry.

The right oil for your machines, your conditions and your uptime requirements.

Mining & Construction

An hour of downtime costs more than a week's supply of oil.

Upper-tier oils for extreme load, dust and heat — extending service intervals where required.

Engine, gear & transmission oils ·
Torque & hydraulic fluids · Greases · Coolants

Transport & Freight

Every kilometre delayed is a promise broken.

Protection for engines, gearboxes and drivelines across varied conditions and climates.

Heavy-duty engine oils · Axle & differential oils ·
Brake & clutch fluids · Coolants · Greases

Industrial

Oil failure doesn't pause production — it stops it.

High-temperature performance, extended drain intervals and programmes that prevent unplanned downtime.

Industrial gear oils · Transformer oils ·
Hydraulic fluids · Industrial oils · Greases

Automotive Workshops

The right oil protects the engine. The wrong one voids the warranty.

OEM-specified oils and fluids for independent workshops and franchise service centres.

Engine oils · Transmission fluids · Gear oils ·
Brake & clutch fluids · Greases

Agricultural

Harvest waits for no one. Neither should your lubricant supplier.

For tractors, harvesters and irrigation pumps — formulated for the load, the heat and the hours.

Engine oils · Hydraulic fluids ·
Gear & transmission oils · Greases · Coolants

Food Manufacturing

Contamination doesn't cost a batch — it costs your certification.

Food-grade, NSF-certified lubricants for processing plants, packaging lines and cold rooms.

Food-grade greases (H1) · Food-grade hydraulic fluids · Chain & conveyor oils ·
Industrial & gear oils

03 — PRODUCTS

The full product range.

OEM-approved lubricants for every automotive and industrial application. If it moves, we have an oil for it.

Engine Oils

Heavy-duty and passenger-car engine oils for diesel and petrol engines — API and ACEA licensed.

Hydraulic Fluids

Anti-wear and zinc-free hydraulic oils in standard and high viscosity-index grades.

Industrial Oils

Transformer, gear, turbine, compressor, heat-transfer and slideway oils.

Gear & Transmission Oils

Manual gear oils, automatic transmission fluids, final-drive oils and transfer-case lubricants.

Greases

Lithium, calcium and complex greases for bearings, open gears, wire ropes and high temperatures.

Coolants & Specialties

Engine coolants, degreasers, cutter-bar oil, AdBlue and brake fluids.

One supplier. Every scale.

From a single-bay workshop to a bulk industrial facility, our lubricants come in the pack size your operation actually needs — so you order what you use, and use what you order.

BRAND	Drum	20 L	10 L	5 L	4 L	1 L
Gazpromneft	✓	✓	–	✓	✓	✓
G-Energy	✓	✓	–	✓	–	✓

04 — OUR BRANDS

Authorised distributor of world-class lubricant brands.

Gazpromneft

**AUTHORISED
DISTRIBUTOR**

Lubricants engineered for extreme load, heat and heavy-duty industrial applications. Oily distributes the full Gazpromneft range across South Africa and SADC.

API certified · ACEA approved · OEM compatible

G-Energy

**AUTHORISED
DISTRIBUTOR**

A premium brand developed by Gazpromneft for modern engines and heavy-duty applications in demanding conditions — for passenger and commercial vehicles.

API compatible · ACEA compatible · OEM compatible

MOL

**AUTHORISED
DISTRIBUTOR**

One of Europe's largest lubricant manufacturers, with more than 100 years of formulation expertise and formulations for major equipment brands.

OEM approved · API licensed · ACEA compatible · ISO 9001 · ISO 14001 · ISO 21469 · ISO 45001 · ISO 50001 · Halal · Kosher

The same standard across every brand

- ✓ Genuine product — no dilution, no substitution
- ✓ Full certification documentation on request
- ✓ Traceability from batch number to delivery note
- ✓ Proper, temperature-controlled storage
- ✓ Technical support across South Africa and SADC
- ✓ Technical data sheets for every product

GAZPROMNEFT · G-ENERGY · COGELSA · MOL — AUTHORISED DISTRIBUTOR IN

South Africa · Botswana · Namibia · Zambia · Mozambique · Zimbabwe · Lesotho · Eswatini · Malawi

05 — WORKING WITH OILY

We understand your needs.

Three roles. Three different pressures. One supplier who understands all of them.

WORKSHOP MANAGER

When something fails, you carry the blame.

One call connects you to a technical specialist who understands machines. We work through failures with you — oil analysis, root-cause identification and documented findings you can account for.

- ✓ Technical data sheets for every product
- ✓ Application-specific recommendations in writing
- ✓ Same-day response on technical queries

PROCUREMENT & FINANCE

You need a decision you can defend upstairs.

The cheapest oil is never the cheapest option. We back quality with total-cost-of-ownership models, drain-interval data and documented service records — with transparent pricing and no fine print.

- ✓ Formal quotations within 4 business hours of speaking with sales
- ✓ Volume pricing tiers with written commitments
- ✓ 30/60-day account terms for qualifying operations
- ✓ Total-cost-of-ownership documentation on request

BUSINESS OWNER

Don't let a supplier change break what you've built.

We've kept South African businesses supplied through load shedding, logistics disruptions and supply-chain chaos — with product lines that don't change without warning.

- ✓ A dedicated account manager, not a call centre
- ✓ Proactive supply planning — no stock-outs
- ✓ A direct escalation line to management

FREE TECHNICAL REVIEW

Price per drum is the smallest number in the equation.

Our Cost-of-Downtime Calculator models what unplanned downtime, premature component failure and over-servicing really cost — then an Oily technical rep verifies it against your equipment.
